It Is Hurricane Season! Make sure your Home is Safe!

- Check hurricane shutters and latches to ensure they are in good working condition.
- Check galvanized sheeting and shingles on your roof, to ensure they properly secured.
- Make all necessary repairs to your roof.
- Check wall structures of your home and business and repair all cracks.
- Obtain lumber, plywood, and concrete nails for battening up.
- Keep plastic bags, nails, hammers, wire, rope and pliers handy.
- Make sure you have emergency equipment such as water boots, raincoats, a flashlight, battery-powered radio, hurricane lamp, and matches in your house, together with simple first-aid supplies such as iodine, eye lotion, petroleum jelly/Vaseline etc.
- Check home, business and vehicle insurance policies to ensure it provides adequate coverage including contents and flooding.
- Photograph all rooms of your home/business for insurance purposes.
- Make an inventory and take photographs of all possessions before and after the storm.
- Clear your yard and drains of debris.
- Trim trees that hang close to your house or could touch power lines.
- If you own a boat, find a place to move store it in an emergency.
- Ensure that your family has an Emergency Plan and update as necessary.
- If your home is at risk, call the DDME or your District Commissioners for information on the nearest shelter.
